Cyber Exchange Inc

New systems come with a one-year warranty on hardware. All prices are without tax.

Feature Highlights:

- Dual Core CPU for added performance and versatility.
- On-board Vista Aero Glass Compatible DirectX 9 Video with 128MB shared video RAM. This lets you take advantage of all the new video features of Vista without the need for any extra hardware.
- PCI Express x16 slot for upgrading video card for games.
- Standard open architecture parts such as Case, Power Supply, and Motherboard makes it easier to upgrade/replace components.
- Should the need ever arise, the computer comes with a full Windows install CD, as well as a restore feature that returns Windows and all software back to its original out-of-box state.
